# NMI : Membership Benefits

## Who is NMI?

NMI is a long-standing member-based community, driven to showcase the importance of the UK's Semiconductor Industry. We and our members are committed to the growth and collaboration of our chip manufacturing community and associated supply chains.

For the last 28 years, we've led the way in supporting this ever-more important industry.

## What does NMI Do?

NMI provides a range of platforms for our members to discuss, share, and collaborate.

- Conferences
- Tabletop exhibitions at Fabs in the UK/EU
- Access to NMI pavilions at SEMICON exhibitions
- Social networking events
- NMI member plenaries
- Special interest working groups
- Access to our basecamp collaborative tool
- NMI digital and physical newsletter
- Special interest webinars
- Access to sister company UKESF (UK Electronics Skills Foundation)
- Collaboration with our EU counterpart organisations
- Access to partner companies' events
- Publicity and marketing opportunities
- Access to Climate Change Levy partner consultants, Envantage

NMI provides a broad range of benefits and services, each intended to support the health of your business and the UK industry.

Membership is for all organisations active in the Electronics Systems supply chain from early-stage SMEs to large multinationals. This includes organisations such as system integrators, electronic product companies, consultancies, IDM's, fabless semiconductor manufacturers, design services, manufacturing, foundry, test, equipment suppliers, failure analysis service suppliers, PCB design & manufacturers, universities, research organisations, EDA vendors, technical training vendors and more.

## **Benefits for NMI Members**

### **FREE entrance to NMI Events:**

- NMI annual conference
- NMI member plenaries
- NMI social networking events
- Special Interest Working Group events, workshops, and roundtables.
- Present and attend webinars on technology, innovation, funding opportunities, and skills development.

### **Special Interest Working Groups:**

- Participate and lead special interest working groups
- Develop through leadership with experts in the Semiconductor industry
- Build consortia and collaboration opportunities

### **Marketing and Brand Awareness:**

- Logo listing and link to member websites
- Sponsorship and exhibition opportunities at discounted member rates
- Priority speaking opportunities at NMI events
- Produce opinion pieces, press releases, and other marketing via our network, and 4.5K strong newsletter community.
- Access to join our NMI Pavillion at SEMICON Europa (and SEMICON locations).

### **Collaborative Funding Projects:**

- Bid Development
- Project Co-Management
- Industry and UKRI Engagement
- Dissemination

### **Knowledge and Resource:**

- The voice of the UK Semiconductor Leadership Group and into Government
- Assist in Government policy decisions
- Strategic affiliations with SEMI Global, CS Catapult, UKRI, Envantage, NPL, and UKESF

### **Climate Change Agreement:**

- Stay within your targeted energy consumption.
- Cutting costly energy tariffs from personal consultancy with our partner Envantage
